

The MainStreet Messenger is *more* than just a telephone

At the heart of the program is the award-winning MainStreet Messenger telephone. The Messenger is a state-of-the-art personal emergency response system.

Emergency Features

◆ High Quality Two-Way Voice is Important in an Emergency Because:

- More information can be gathered about the emergency
- False alarms are reduced
- Dispatcher can give assurance to the individual during emergency situations

◆ Waterproof Transmitter – Worn on the wrist or around the neck; can use in shower or bath.

◆ Activity Monitoring – If the resident's MainStreet Messenger is inactive for a programmed period of time (12, 18 or 24 hours), the Messenger sends an alarm. By pushing the 'away' button, activity monitoring can be temporarily disabled.

◆ Daily Reminders – The Messenger beeps at a programmed time to remind the user of appointments, medication times, etc.

◆ Rechargeable Backup Battery – Protects against short-term power failure (up to six hours).

◆ Easy Integration – The Messenger can be integrated with wireless devices such as smoke detectors, motion sensors and other peripherals.

Telephone Features

◆ Visual Ringing – Keypad flashes to alert the hearing impaired.

◆ Memory Keys – For one-touch dialing of frequently called numbers.

◆ Large Backlit Keypad – Easy to see, even in the dark.

◆ Handset and Speakerphone Volume Controls

◆ Ringer Pitch and Volume Control

◆ Hearing Aid Compatible Handset
