Smart Biz™

CommandWorx

Quick Start Guide

GARDEN VALLEY TECHNOLOGIES

Primary Network Set Up

- Tap Network from the Home screen
- Tap the Plus sign
- Select the desired network
- Enter the Network Name (SSID)
- Enter a secure Wi-Fi password
- Tap Options to customize and view security and Network Restriction options
- Click Save

Point of Sale Network Set Up

- Tap Network from the Home screen, then the Plus sign
- Select the desired network
- Enter the Network Name (SSID)
- Enter a secure Wi-Fi password
- Tap Options to customize and view security and Network Restriction options
- To connect Wireless Point of Sale (POS) devices, enable Wireless Network Access. To enhance business security, the POS network does not broadcast the POS SSID
- Tap Edit and enable Broadcast SSID to connect a Wireless POS device or tap Connect Device via WPS *(Wi-Fi Protected Set-up)* to connect a POS device that requires WPS connectivity
- Contact GVT to assist with connecting wired POS devices

Staff Network Set Up

- Tap Network from the Home screen
- Tap the Plus sign
- Select Staff Network
- Select Staff Network Configuration
- See details below

Shared Password for Staff

- Select Shared Passwords to maximize security and customization
- Customize Options that apply to entire staff network
- Tap the Home icon
- Tap the Staff tile on the Home screen
- Tap the Plus sign to add staff member(s)
- Add the first name, last name & email address
- Select the Device Registration Type
- Click Save
- Customize Options for the staff member
- To remove a staff member, select the staff member, tap Edit and select Delete Staff.

Customer Portal Set Up

- Tap Network from the Home screen
- Tap Customer Portal in Shortcuts
- Tap the toggle to enable the Customer Portal
- Tap Page Content to customize the Wi-Fi Splash page
- Enter Network Name, Page Heading, upload a cover photo
- Select Login Requirements. Select Name and email address if you wish to view a list of users in your customer portal
- Select URL or Text, then add your Terms of Service for using your customer Wi-Fi
- Enter the Button Text. Example: "Connect"
- Click Save
- Tap Branding
- Upload your logos or an image and add your branding colors
- Click Save
- Tap Preview Customer Portal to view your Splash page
- Edit as desired following steps above
- Set Network Access Hours
- Add Network Restrictions to block objectionable content or applications
- Tap Customer Portal Visitors to select the Login Retention Period. This indicates how often customers will need to re-enter their information to connect and how data will be stored
- Tap Email Customer List File to send a list of unique visitors over the Login Retention period to your CommandWorx email address

Network Resilience Set Up

- Tap Network, then tap the Network Resilience Shortcut
- Tap the toggle to enable Network Resilience
- Tap Select Failover Device SSID and select the Hotspot name of the cellular or dedicated Hotspot device. The device must be On and Discoverable
- Enter the Hotspot Password
- Check the terms box
- Tap Connect to Hotspot
- You will be notified when the connection is successful
- Select which business - critical networks will connect to the Hotspot in the event of an outage

Network Restrictions

- Tap Network from the Home screen
- Select the desired network
- Select Network Restrictions in Options
- Select Content Restrictions to restrict access to content categories
- Select Applications to block specific applications or add time limits on the staff network
- Select Websites to block specific websites

Customer Portal Access Hours

- Tap Networks, Tap Customer Portal in Shortcuts
- Select Network Access Hours in Options
- Select Every Day to set a start and end time for all days of the week
- Select Custom to create custom start and end times or turn access OFF for specific days of the week

Staff Network Access Hours

- If Staff Network is configured with a single shared password, select Network Access Hours in Options
- Select Every Day to set a start and end time for all days of the week that apply to all staff members
- Select Custom to create custom start and end times or turn access Off for specific days of the week for all staff members
- If Staff Network is configured with individual passwords, select the individual staff member in the Staff tile from the Home screen. Set access hours for each staff member as desired
